

CONSUMER

AUTOMATED EQUIPMENT
AND SERVICES

Worldwide

ATS has mastered automation across diverse industries and processes. The vast experience and resources gained from being a world leader in automation directly benefits every consumer project.

GLOBAL FOOTPRINT

20 facilities and support locations around the globe

EXPERIENCE

Successful completion of over 15,000 projects worldwide

INNOVATION

A world leader in creating benchmark automation solutions across diverse sectors

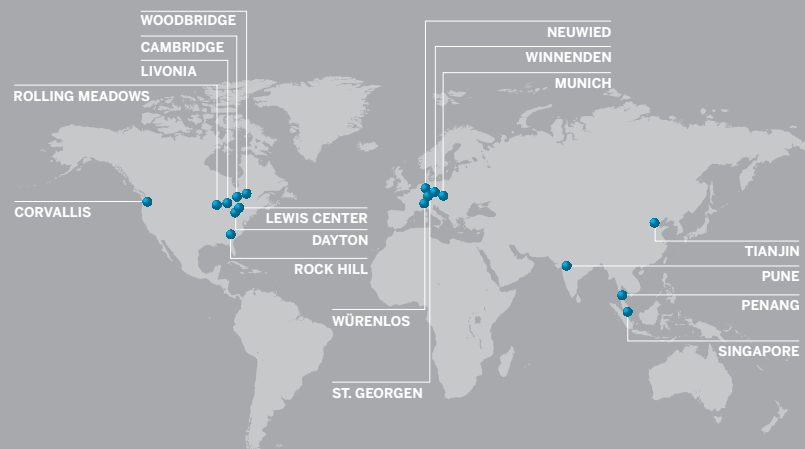

SCALE OF RESOURCES

A knowledge base that includes 2,400 employees and a vast network of highly skilled partners and suppliers

FINANCIAL STRENGTH

Positive financial results and a healthy balance sheet solidifies ATS as a strong partner with a clear intention for long term relationships

Global presence

Knowledge to go the distance

At ATS, we believe that leveraging insights and best practices between all the markets we serve creates a unique multi-industry synergy. We apply the knowledge gained from other sectors to projects in the consumer industry.

THE BENEFITS OF KNOWLEDGE SHARING:

- / Enhanced problem solving
- / Strengthened capabilities
- / Accelerated time to market

MULTI-SECTOR EXPERIENCE

- / ATS successfully delivers automation solutions across diverse industries

ATS in Consumer

You have unique requirements. We have the expertise to exceed them.

Assembly

ATS has engineered more than 3,000 assembly systems responsible for building leading edge consumer products.

Testing

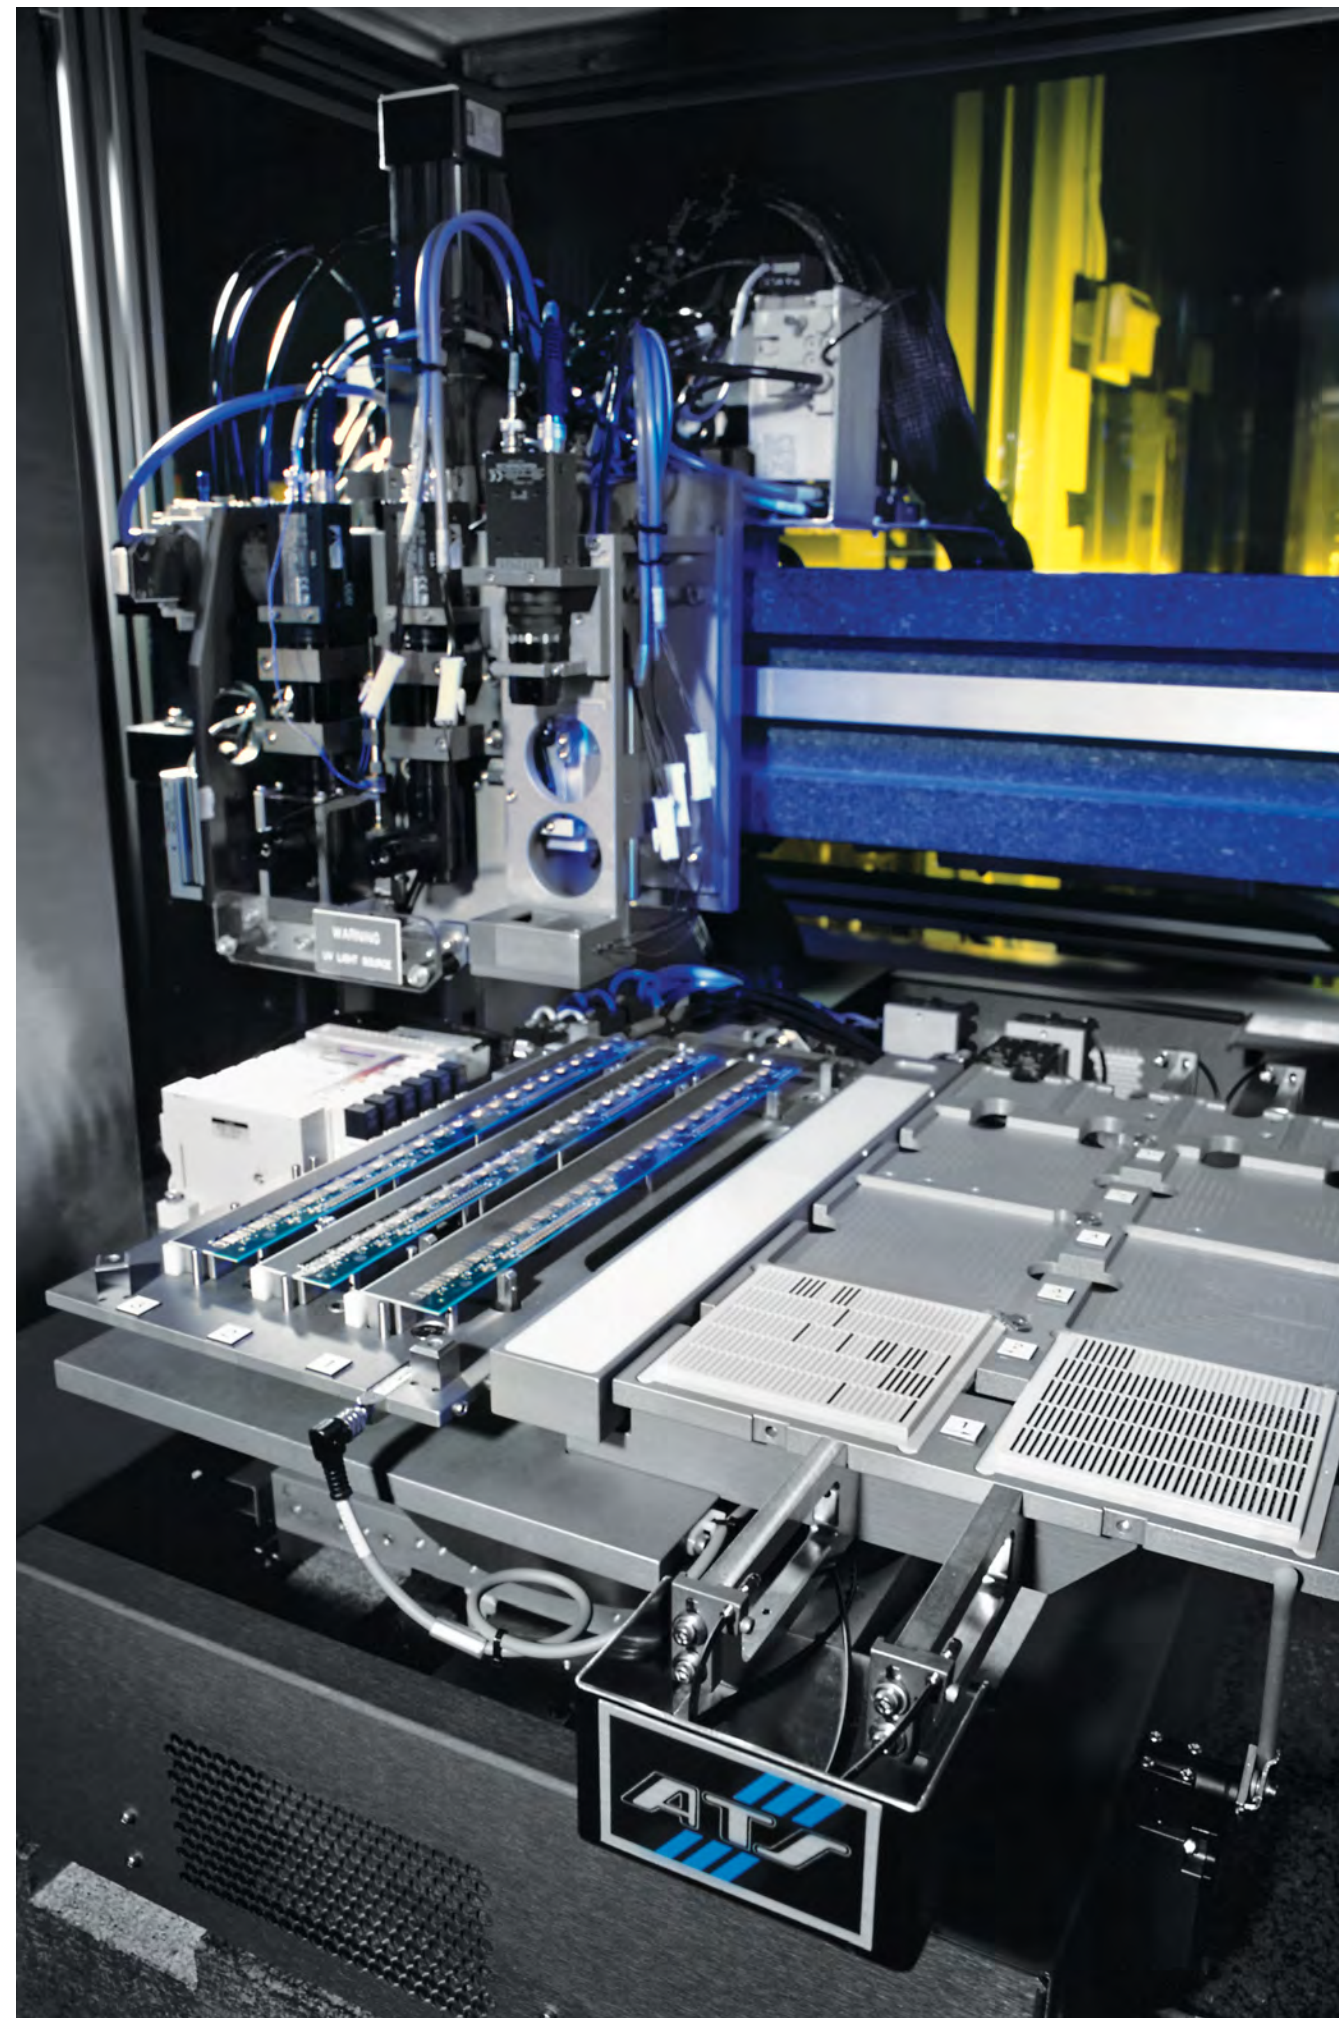

Our sophisticated range of automated testing capabilities – from fit to finish to function – give you confidence that your assembled products will be exactly what your customers expect. We can even test components at critical points during assembly preventing unnecessary waste and delays.

Packaging

Your product needs to get to market, and we can help get it there. From assembly to packaging, we can deliver a complete manufacturing solution so your product is ready to ship.

EXPERIENCE INCLUDES:

- / Personal Care
- / Handheld Electronics
- / Display Technology
- / Computer Electronics
- / Recreational Products
- / Household Appliances

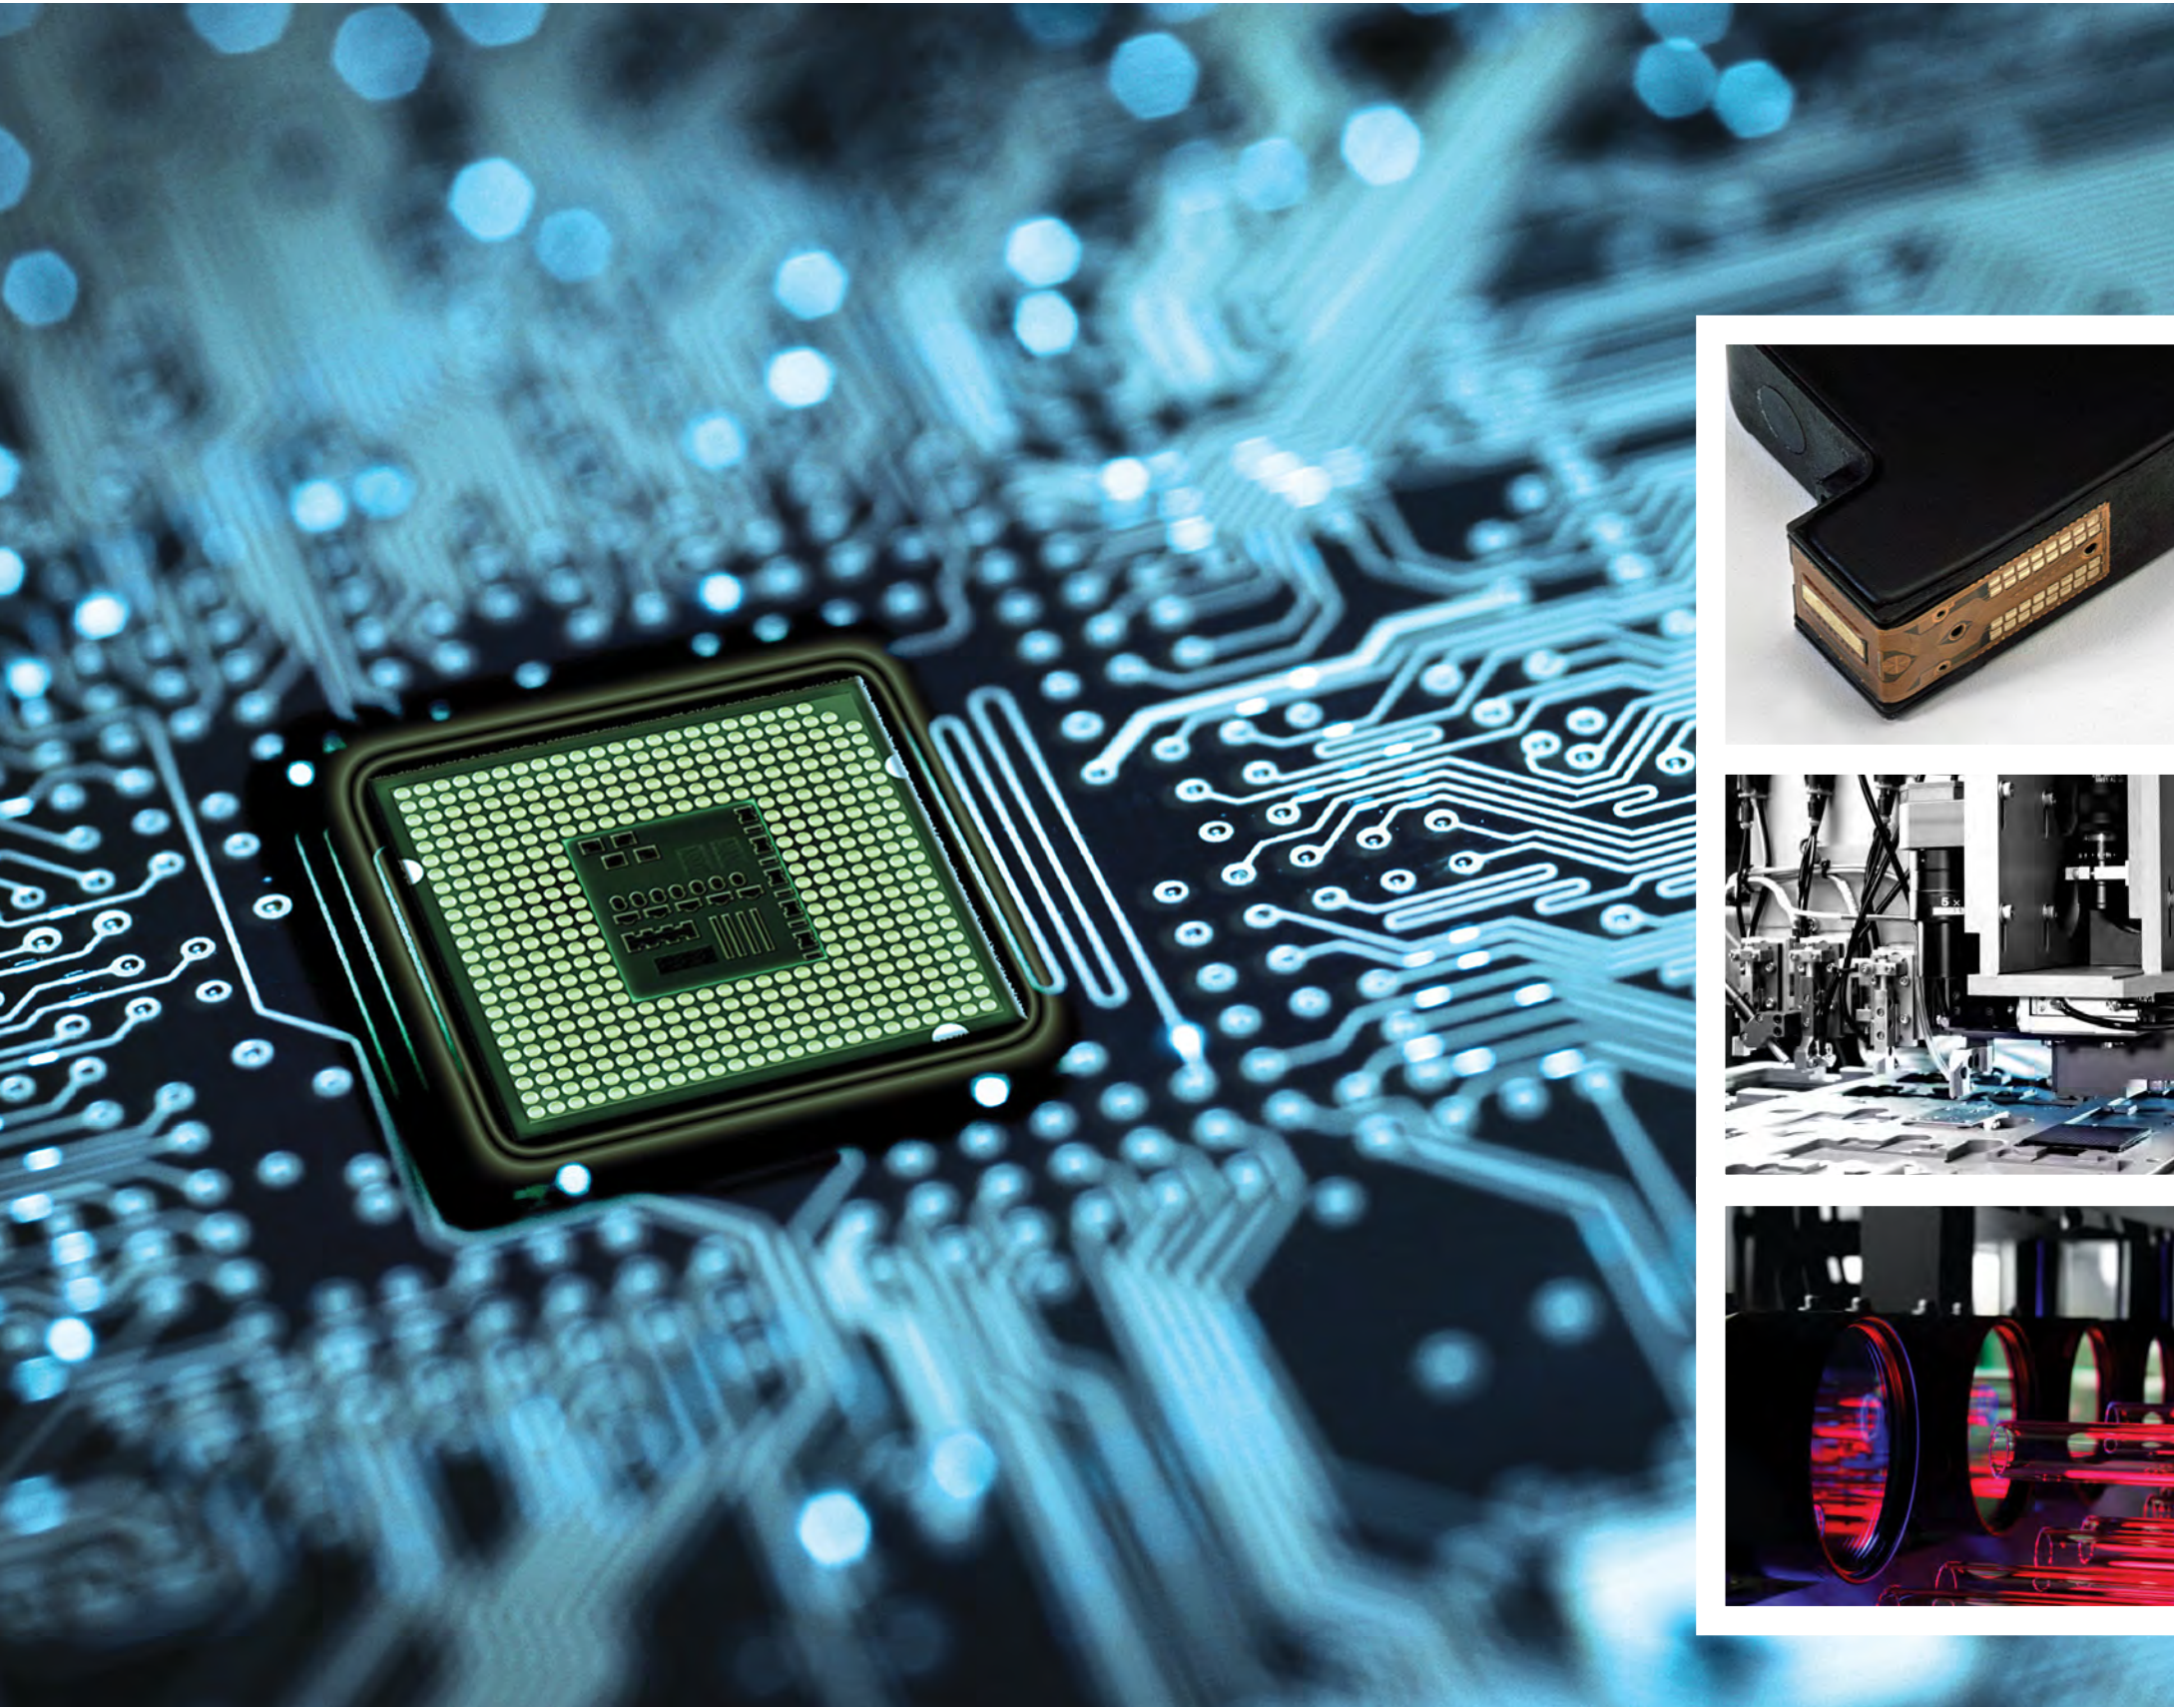

Offering the perfect synergy of experience, automation technology, and scale

Bringing thousands of unique consumer automation projects to market has helped us develop an extensive range of technology and experience. Whether you need ATS to build custom automation globally or to help you take advantage of our contract equipment manufacturing, we have the scale to reduce costs and speed time to market.

ATS DELIVERS:

- / Accelerated delivery due to proven methodologies
- / Proven experience working in process-driven environments
- / Extensive reliability and robustness testing
- / Turnkey solutions with complete life cycle services

Helping advance the future

ATS has a lifetime of experience automating manufacturing processes. As technology advances, our capabilities continually evolve to keep pace.

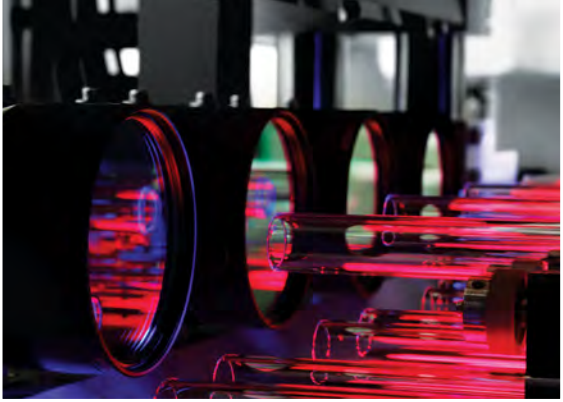

Laser

From laser ablation to welding, from micromachining to marking, we have amassed substantial experience creating flawless automation systems that use sophisticated laser techniques.

High Accuracy

With our expertise in micron and sub-micron processes, we have the know-how and technology to make your product transform to high volume manufacturing.

Machine Vision

Delivering high performance vision is a craft we have perfected. Our vision experts blend a combination of optics, lighting, and software to produce industry leading solutions.

The people behind the projects

When you work with ATS on your consumer project you are backed by our experienced, professional management team and hundreds of skilled experts worldwide. The range of core competencies offered by our diverse global workforce means that we can find the perfect combination of skills to complement any project.

The comprehensive support you need

Our program managers work seamlessly with your experts to ensure that all required skill sets are well represented on the project team. In addition, we have access to a vast network of qualified, audited partners who can supply the components or expertise needed to fill any gaps. We take ownership of guiding the team, raising any issues for joint collaboration and resolution to ensure the project is delivered on time and on budget.

ATS CORE COMPETENCIES:

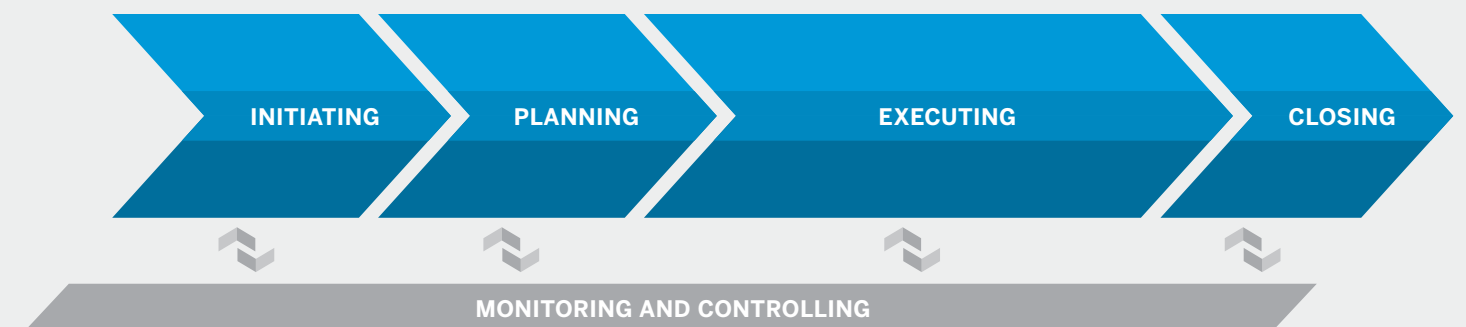

- / Project Management
- / Mechanical
- / Electrical
- / Software
- / Physics
- / Chemistry
- / Toolmaking
- / Production

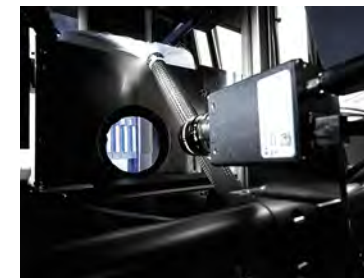

5 PHASES IN THE PROJECT LIFECYCLE

A proven process

Our program process is modelled around the Project Management Institute's 5 phased project lifecycle. A combination of proven methods and global best practices ensures successful implementation of your requirements.

Achieving best in class

TECHNOLOGY PORTFOLIO

Years of experience supporting consumer automation projects means that we have built up an extensive array of technology that will work for you.

A DISCIPLINED APPROACH TO PROGRAM EXECUTION

Our program management group delivers extensive project planning, thorough communications and customer advocacy. All risks are carefully identified and assessed with detailed recommendations for mitigation.

TURNKEY SOLUTIONS

We will take responsibility for ensuring you have the sophisticated equipment and services needed to support your consumer project.

SCALING RESOURCES TO MEET REQUIREMENTS

We can efficiently ramp up staff and resources to meet aggressive timelines.

DESIGNED FOR EASE OF USE

We build our automation systems to maximize reliability, maintainability and sustainability. Then we test them thoroughly to prove their efficacy. Once a solution is installed at your facility, ATS experts can work closely with you to ensure it is running at its very best.

Best in class

ATS follows an innovative and thoroughly-tested process to provide state-of-the-art consumer solutions:

INVESTIGATE

We analyze our extensive technology portfolio to determine whether ATS can effectively meet all project requirements through our own knowledge base and proprietary technology

INTEGRATE

If we can't meet all criteria in-house, we integrate technology and expertise from one of our world-class suppliers

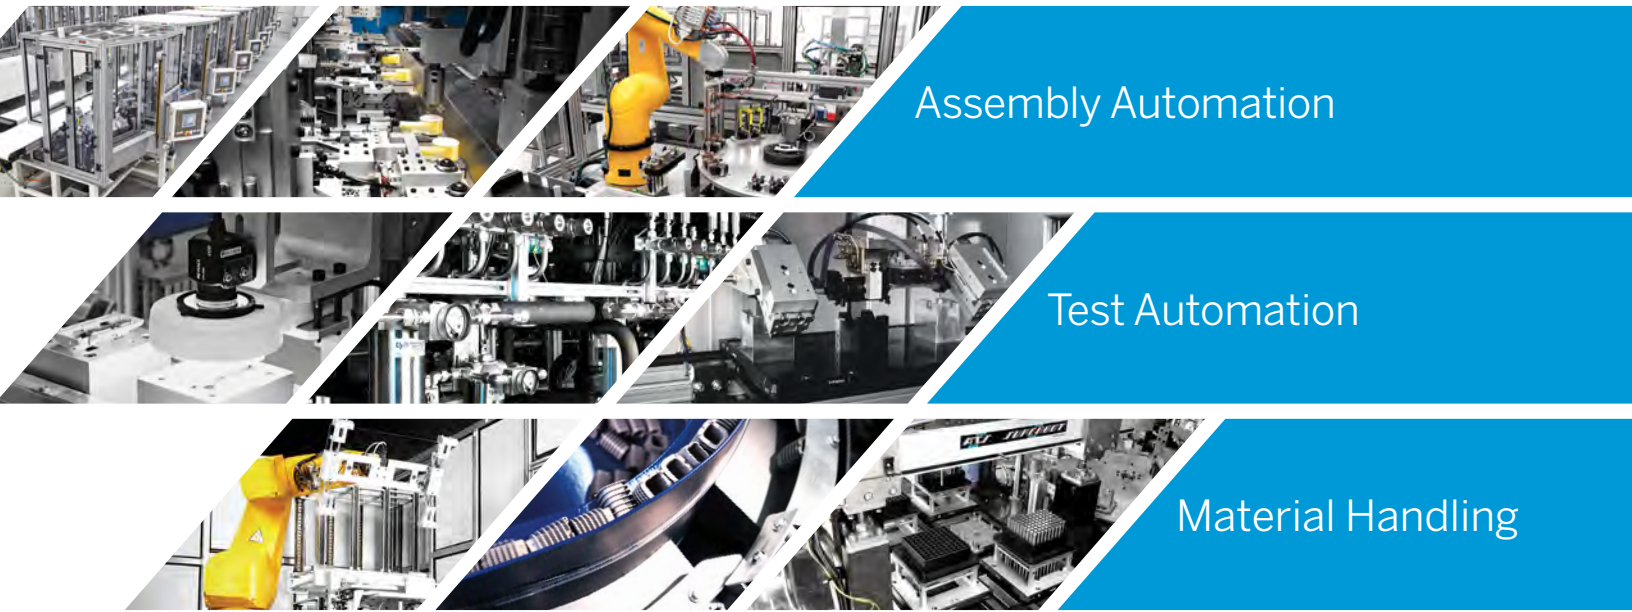

INNOVATE

If the right tools don't yet exist, we combine our creativity and expertise to bring them to life

Sharpen your competitive edge with ATS
